

CodeId	Component	CodeId	Voice	CodeID	Lower class
5216	Components related to metabolism - endocrinological and immunological systems	5217	Hormonal change		
		5218	Metabolic change		
		5219	Change in blood sugar	5462	Low blood sugar
				5463	High blood sugar
		5220	Jaundice		
		5221	Immunological changes	5222	Weakened resistance
		5401	Hypersensitivity reaction	5464	Related to infections need for precaution
		5465	Fracture risk		
5297	Sensory and neurological functions - components related to sensory and neurological functions	5466	Lymphatic circulation disorder		
		5214	Neurological changes	5211	Change in level of consciousness
				5414	Tremor
				5415	Stiffness
				5416	Speech disorder
				5417	Numbness
				5418	Dizziness
				5419	Convulsion
				5470	Paralysis symptom
				5471	Languor
				5472	Twitch disorder
		5298	Change in sensory function(<i>impaired or disturbed sensory function</i>)	5305	A change in the sense of hearing
				5306	A change in the sense of taste
				5307	A change in the sense of smell
				5308	Change in the sense of sight

				5309	Change in sense of touch
				5310	A change in the sense of balance
				5311	Irritability
5362	The components related to the stages of the life cycle	5369	Pregnancy		
		5377	Childbirth		
		5381	Age-appropriate growth and development		
		5424	Sexual health		
		5426	Reproductive health		
		5431	Newborn growth and development		
		5488	Impending death		
		5489	Ability to work and function		
		5490	A parenting need		
5021	Excretion - the components related to digestion, urinary tract function, bleeding and other secretions	5022	Disorder related to defecation	5023	Faecal incontinence
				5024	Constipation
				5025	Diarrhea
				5028	Difficulty defecating
				5029	Flatulence
				5384	Bloody stool
				5438	Vandalism
		5031	Urinary disorder	5032	Urinary incontinence
				5033	Residual urine
				5034	Urinary tract
				5035	Increased need to urinate
				5037	Decreased urine output
				5039	Increased urine output

				5040	Hematuria
				5385	Irrigation
		5043	Haemorrhage		
		5044	Other excretory disorder	5048	Vomiting
		5055	Drainage secretion		
		5386	Impaired kidney function		
		5047	Nausea		
5188	Breathing - components related to lung function	5195	Difficulty breathing(<i>situation due to lack of oxygen or lack of ventilation</i>)	5196	Shortness of breath
				5197	Hyperventilation
				5453	Hypoventilation
				5454	Decreased respiratory rate
				5455	An increase in respiratory rate
				5456	Abnormal breath sounds
				5457	Variation in breathing rhythm (<i>includes e.g. respiratory arrests</i>)
		5198	Irritable cough		
		5201	Risk of aspiration		
		5202	Mucousness		
		5458	Respiratory depression		
		5459	Respiratory obstruction		
		5460	Lack of oxygen		
5437	Coordination of treatment and follow-up care - coordination of multiprofessional care and follow-up care, as well as examinations and procedures	5121	The need for expert services(<i>care related to care organized in cooperation between healthcare professionals and other professional groups</i>)		

		5124	A need related to patient rights		
		5356	The need for follow-up care		
		5383	The need for information related to sleep disorders		
		5387	The need for information related to excretion		
		5399	The need for information related to health behavior		
		5144	The need for information related to drug treatment(<i>insufficient knowledge about medication and its implementation</i>)		
		5172	The need for information related to nutrition		
		5203	The need for information related to breathing		
		5215	The need for information related to blood circulation		
		5402	The need for information related to metabolism		
		5404	The need for security-related information		
		5407	The need for information supporting independence		
		5312	The need for information related to sensory functions		
		5413	Pain-related need for information		
		5353	The need for information related to tissue integrity		
		5420	The need for information related to neurological changes		
		5425	The need for information related to sexual health		
		5427	The need for information related to reproductive health		
		5428	The need for information related to pregnancy		
		5429	The need for information related to childbirth		
		5430	The need for information related to breastfeeding		
		5432	The need for information related to the growth and development of the newborn		
		5433	The need for information related to age-appropriate growth and development		

		5436	The need for information related to the procedure(<i>includes e.g. research and sampling</i>)		
		5492	The need for information related to fluid balance		
		5493	The need for information related to aging		
		5495	The need for information related to movement		
5473	Pain management	5474	Stomach ache		
		5475	Ear pain		
		5476	Back pain		
		5477	Labor pain		
		5313	Sudden pain		
		5314	Chest pain		
		5315	Headache		
		5316	Inflammation pain		
		5317	Pain associated with the procedure		
		5318	Traumatic pain		
		5319	Long-term pain		
		5320	Pain associated with tissue damage		
		5321	Neuropathic pain		
		5322	Idiopathic pain		
		5323	Cancer pain		
5324	Tissue density components related to the condition of the mucous membranes and corneas as well as the skin and subcutaneous layers	5326	Skin rash		
		5327	Risk of skin breakdown		
		5332	Rash		
		5342	Surgical wound		
		5345	Skin graft		

		5346	Skin pick-up site		
		5348	Diabetic foot ulcer		
		5349	Leg ulcer		
		5350	Pressure ulcer		
		5351	Infected wound		
		5333	Change in mucosal integrity(<i>disorder in the condition of the mucous membrane</i>)		
		5344	Burn injury		
		5423	Frostbite		
		5478	Inflammation of the skin caused by a foreign body		
		5479	Incubate		
		5480	Muscle tongue		
		5481	Contusion		
		5482	Incised wound		
		5483	A puncture wound		
		5484	Contusion		
		5485	Gunshot wound		
		5486	Bite wound		
		5487	Dermatitis		
5127	Drug treatment - the components related to the use of drugs and the implementation of drug treatment	5130	Inappropriateness of medication		
		5134	Risk of intoxication		
		5135	Drug allergy		
		5136	Drug refusal		
		5137	Adverse effect of drugs		
		5138	Drug interactions		

5080	Fluid balance - components related to the amount of fluid in the body	5139	The need for help with medication		
		5142	Medication requiring special monitoring		
		5084	Risk of fluid imbalance		
		5085	Drying out		
		5441	The need to restrict fluid intake(<i>includes e.g. water intoxication</i>)		
		5442	Increased fluid volume		
5269	Mental functioning - the components related to achieving mental balance	5279	Self-image change(<i>difficulty in accepting and understanding oneself</i>)	5153	Eating disorder
				5280	Body image change
				5281	Self-esteem disorder
				5282	Anxiety(<i>vague unexplained malaise</i>)
		5284	A change in mood(<i>mood swings and ups and downs</i>)	5285	Euphoria
				5286	Manliness
				5287	Apathy
				5288	Dejection
				5467	Fatigue
				5468	Panic disorder
		5290	Behavior change(<i>behavior that disturbs oneself and/or others</i>)	5291	Aggressiveness
				5293	Self-destruction
				5294	Repetitive compulsions functions
				5295	Turbulence
		5408	Disturbance of the sense of reality	5409	Hallucinations
				5410	Delusions

5256	Daily activities and self-employment - components related to self-employment			5411	Incoherence
				5412	Complexity
		5469	Fear		
		5001	Change in activity	5004	Lack of motivation
				5006	Hyperactivity
				5008	Fatigue
				5009	Poor tolerance to stress
				5010	Limitation of movement
				5011	Muscle weakness
		5002	Decreased activity		
		5012	Sleep disturbance (change in quality and quantity of sleep)	5016	Change in circadian rhythm
		5268	The need for aids(<i>correction of reduced functional capacity with aids</i>)		
		5263	The need for help with washing and hygiene		
		5264	The need for help with dressing		
		5265	The need for help with eating		
		5266	The need for help with movement		
		5267	The need for help with going to the toilet		
		5406	The need for help related to transactions		
5145	Nutrition - the components related to securing food and nutrients	5146	Malnutrition disorder	5046	Heartburn
				5148	Loss of appetite
				5152	Difficulty swallowing
				5154	Malabsorption
		5156	Difficulty eating	5168	Difficulty breastfeeding
				5169	Difficulty sucking

		5161	The need for a special diet(<i>individual nutrition</i>)		
		5162	The need for supplements		
		5170	Increased need for food		
		5171	Reduced need for food		
		5163	The need to restrict food intake		
		5164	Food allergy		
		5452	Risk of malnutrition		
5059	Coping - the ability of the individual and the family to cope with health, its changes and problems related to or resulting from social interactions	5060	Reduced patient survival (<i>Change in cognitive function</i>)	5064	Inability to concentrate
				5065	Lack of initiative
				5066	Learning disability
				5067	Inability to adapt
				5068	Forgetfulness
				5440	Risk of exclusion
		5074	The need for support related to survival	5077	Grief
				5078	The need for emotional support
				5079	Feeling of guilt
		5225	Communication problem		
		5390	Change in social interaction - Change in social functioning ability	5231	The need for closeness
				5232	The need for privacy
				5233	Social isolation
				5388	Difficulty working in a group
				5389	The difficulty of being alone
		5395	Health risk related to the living environment(<i>contains e.g. radiation hazard</i>)		
5090	Health behavior - for health promotion	5123	Non-adherence to treatment	5398	Refusal of treatment

	related components	5444	Drug addiction		
		5445	Exercise addiction		
		5446	Codependency		
		5447	Internet addiction		
		5448	Shopping addiction		
		5449	Gaming addiction		
		5450	Sex addiction		
		5451	Drug addiction		
5236	Safety - safety risks caused by the disease and treatment environment	5248	Danger of accidents		
		5251	Danger of falling		
		5252	Escape danger		
		5253	A feeling of insecurity		
		5254	Infectious disease carrier <i>(includes bearing or exposure to be taken into account in the treatment)</i>		
		5255	Risk of harming another		
		5403	Risk of self harm		
5204	Blood circulation, the components related to the blood circulation of different organs	5088	Swelling		
		5205	Circulation disorder	5206	Change in blood pressure
				5207	Change in heart rhythm
				5461	Peripheral circulatory disorder
		5208	Change in body temperature	5209	Hypothermia
				5210	Fever

CodeId	Component	CodeId	Voice	CodeId	Lower class
1379	Components related to metabolism - endocrinological and immunological systems	1381	Blood sugar monitoring		
		1382	Monitoring and treatment of jaundice		
		1385	Identifying the risk of infection		
		1386	Implementation of protective insulation		
		1675	Implementation of infectious disease isolation		
		1778	Treatment of blood sugar balance		
		1779	Implementation of spatial isolation		
		1780	Implementation of air insulation		
		1781	Implementation of drop isolation		
		1782	Implementation of contact precautions		
		1783	Fracture risk identification		
1510	Sensory and neurological functions - Components related to sensory and neurological functions	1534	Consideration of stimulus sensitivity		
		1682	Assessment of level of consciousness		

		1683	Pupil size monitoring		
		1684	Motor response/motility testing		
		1685	Testing muscle strength		
		1686	Testing for sensory disturbances		
		1687	Monitoring facial expression and symmetry		
		1688	Monitoring limb strength and coordination		
		1689	Tracking speech formation		
		1690	Assessment of orientation		
		1691	Monitoring visual field deficits		
		1692	Dizziness monitoring		
		1693	Assessment of muscle stiffness		
		1694	Monitoring of epileptic seizures		
		1798	Assessment of cognitive function		
		1799	Seizure monitoring		

		1800	Tremor monitoring		
		1801	Monitoring of sensory functions		
1645	The components related to the stages of the life cycle	1318	Caring for a dying patient(<i>action when death approaches or when the patient dies</i>)		
		1650	Heredity counseling		
		1653	Birth care		
		1654	Monitoring of pregnancy		
		1658	Abortion treatment		
		1663	Monitoring and treatment of age-appropriate growth and development		
		1708	Newborn monitoring and treatment		
		1709	Palliative care		
		1711	Postpartum follow-up		
		1898	Post-abortion care		
1022	Excretion - For digestion, urinary tract function, bleeding and more	1024	Monitoring stool quantity or quality		

components related to secretion	1025	Monitoring bowel sounds		
	1027	Diarrhea treatment		
	1028	Treatment of constipation		
	1029	Bowel emptying		
	1036	Inserting an indwelling catheter		
	1037	Single catheterization		
	1038	Flushing the urinary tract or bladder		
	1039	Urinary stoma treatment		
	1040	Treatment of urinary incontinence		
	1045	Colon treatment		
	1058	Prevention and treatment of nausea or vomiting		
	1062	Monitoring the quantity and quality of feeding tube secretions		
	1063	Monitoring the quantity and quality of the drainage secretion		

		1065	Bleeding monitoring and treatment		
		1067	Implementation of dialysis treatment (kidney replacement therapy)		
		1664	Urinary frequency monitoring		
		1665	Measurement of residual urine volume		
		1666	Bladder training		
		1667	Monitoring the quantity and quality of amniotic fluid		
		1714	Urine quality monitoring	1715	Clear urine
				1716	Bloody urine
				1717	Cloudy urine
				1718	Dark urine
		1719	Daily urine volume monitoring		
		1720	Hourly diuresis monitoring		
		1721	Removal of indwelling catheter		
		1722	Placing a nasogastric tube		

1324	Breathing - components related to lung function	1723	Securing the function of the catheter or nasogastric tube		
		1724	Nasogastric tube removal		
		1340	Breath monitoring		
		1341	Breathing quality monitoring	1768	Gasping breath
				1769	Shallow breathing
				1770	Rattling breath
				1771	Wheezing
				1772	Noisy breathing
		1345	Monitoring of respiratory secretions		
		1349	Administering supplemental oxygen		
		1350	Implementation of breathing exercises		
		1351	Lung drainage treatment		
		1352	Sucking mucus		
		1354	Blowing into a bottle		

		1355	Treatment of the tracheostomy stoma		
		1672	Intubation		
		1673	Extubation		
		1773	Mechanical support of breathing		
1152	Coordination of treatment and follow-up care - Coordination of multiprofessional care and follow-up care, as well as examinations or procedures	1021	Control related to sleep or waking state		
		1059	Guidance related to the prevention and treatment of nausea		
		1074	Guidance related to dialysis treatment		
		1124	Control related to fluid balance		
		1145	Guidance promoting health behaviour		
		1153	Coordination of expert services		
		1175	Safeguarding the patient's rights		
		1180	Performing the procedure		
		1194	Preparation for the procedure		
		1195	Post-procedure monitoring		

		1204	Medication management		
		1261	Guidance related to nutrition		
		1358	Control related to breathing		
		1376	Control related to blood circulation		
		1387	Control related to metabolism		
		1430	Control related to infection		
		1458	Organizing aids for the customer		
		1514	Hearing-related control		
		1539	Pain-related control		
		1546	Skin care guidance		
		1562	Oral care guidance		
		1564	Eye care guidance		
		1573	Wound care management		
		1609	Planning and coordination of follow-up care (<i>Preparing a follow-up care plan or</i>		

			<i>organizing control visits)</i>		
		1651	Pregnancy-related guidance		
		1662	Breastfeeding control		
		1676	Request for job assistance		
		1706	Guidance related to sexual health		
		1707	Guidance related to reproductive health		
		1899	Control related to movement		
		1900	Secretion-related control		
		1901	Safety-related guidance		
		1902	Guidance related to the neurological condition		
		1904	Birth control		
		1905	Management of cast and brace treatment		
		1906	Guidance related to the ability to work and function		
		1907	Parenting guidance		

1310	Pain management	1536	Assessment of pain intensity at rest		
		1537	Assessment of pain intensity during movement		
		1739	Determining the location of the pain		
		1740	Assessment of pain quality	1741	A stabbing pain
				1742	Sharp pain
				1743	A dull pain
				1744	Burning pain
				1745	Superficial pain
				1746	Wave-like pain
				1747	Excruciating pain
				1748	Cramping pain
		1749	Assessment of pain duration		
		1750	Assessment of the temporality of pain	1751	Constant pain
				1752	Intermittent pain

				1753	Intermittent pain
				1754	Pain occurring in a certain situation
		1755	Drug-free pain treatment	1756	Massage
				1757	Acupuncture treatment
				1758	Cold therapy
				1759	Heat treatment
				1760	Hydrotherapy
				1761	Posture therapy
				1762	Business management
				1763	Relaxation methods
				1764	Turning attention away from pain
				1765	Image training
				1766	Awareness skill training
		1767	Evaluation of the effects of drug-free pain management methods		

1540	Tissue density - components related to the condition of the mucous membranes and corneas, as well as the skin and subcutaneous layers	1541	Assessment of skin condition(<i>taking care of skin condition</i>)	1805	Healthy skin
				1806	Dry skin
				1807	Greasy skin
				1808	Boiled skin
				1809	Rash
				1810	Skin blister
				1811	Redness of the skin
				1812	Swelling of the skin
				1813	Skin heating
				1814	Odor on the skin
		1558	Monitoring the condition of mucous membranes		
		1559	Treatment of mucous membranes		
		1563	Eye condition monitoring		
		1569	Applying a wound dressing	1705	Applying wound adhesive

			1850	Laying a polyurethane film
			1851	Applying hydrocolloid
			1852	Placing alginate
			1853	Applying the hydrogel
			1854	Putting polyurethane foam
			1855	Putting Hydrofiber
			1856	Applying a hydrophobic bond
			1857	Putting on a combination dressing
			1858	Applying a silicone bandage
			1859	Placing a wound mesh
			1860	Putting on a silver dressing
			1861	Applying an activated carbon dressing
			1862	Applying honey dressing
			1863	Applying resin sealant

				1864	Applying wound tape
				1865	Applying a ligature
				1866	Applying a wound dressing
				1867	Applying an absorbent wound pad
				1868	Applying a skin protection film or cream
				1869	Applying the gel treatment plate
				1870	Placing the silicone sheet
				1871	Applying silicone gel
				1873	Applying zinc tape
				1874	Applying scar cream
				1876	Placing the printed textile
				1877	Applying another wound dressing
		1571	Skin graft monitoring		
		1572	Monitoring of skin sampling site		

		1703	Implementation of vacuum suction treatment		
		1802	Eye care		
		1803	Monitoring the condition of the ears		
		1804	Ear care		
		1815	Pressure ulcer risk assessment		
		1816	Treatment of skin and skin changes		
		1817	Monitoring the tongue's vital reaction		
		1818	Tab color tracking		
		1819	Tab temperature monitoring		
		1820	Monitoring of tongue swelling		
		1821	Open wound monitoring		
		1822	Evaluation of the amount of wound exudate	1823	Scarce wound exudate
				1824	Moderate wound exudate
				1825	Abundant wound exudate

		1826	Evaluation of wound exudate quality	1827	Clear wound discharge
				1828	Bloody wound exudate
				1829	Cloudy wound exudate
		1830	Ulcer infection monitoring	1831	Black necrotic tissue
				1832	Yellow fibrin tissue
				1833	Red granulation tissue
				1834	Pink epithelial tissue
		1835	Cleaning the wound	1551	Treatment bath
				1553	Chemical cleaning
				1836	Cleaning the wound with tap water
				1837	Cleaning the wound with a saline solution
				1838	Cleaning the wound with wound irrigation fluid
				1839	Cleaning the wound with a wound wipe
				1840	Cleaning the wound with a therapeutic bath

				1841	Chemical cleaning of the wound
				1842	Mechanical cleaning of the wound
				1843	Cleaning the wound with a collagenase preparation
				1844	Biological cleaning of the wound
				1845	Wound cleaning, other
		1846	Measuring the length of the wound		
		1847	Measuring the width of the wound		
		1848	Measuring the depth of the wound		
		1849	Evaluation of the extent of the wound		
		1878	Removal of wound closure material	1570	Removing stitches
				1880	Partial removal of stitches
				1881	Removing snags
				1882	Partial removal of hakas
				1883	Removing support stitches

				1884	Partial removal of support stitches
		1885	Wound closure	1886	Closing the wound with stitches
				1887	Closing the wound with staples
				1888	Closing the wound with skin barrier tape
				1889	Closing the wound with wound adhesive
		1890	Plaster and support treatment	1891	Plastering plaster
				1892	Placing a plaster of paris
				1893	Putting on the preparation
				1894	Support taping
				1895	Traction treatment
				1896	Putting on an orthosis
		1897	Scar treatment		
1201	Drug treatment - the components related to the use of drugs and the implementation of drug treatment	1202	Monitoring the effect of the drug		
		1211	Deviation from medication		

	1236	Administering the drug regardless of will		
	1237	Taking care of dose distribution		
	1239	Vaccination		
	1216	Oral medicine		
	1217	Administering a drug injection		
	1218	Rectal medicine		
	1219	Administration of inhalation		
	1220	Applying a medicated patch		
	1221	Vaginal medicine		
	1222	Administration of drug infusion		
	1223	Medicine directly into the stomach		
	1224	Applying creams		
	1225	Administering drops		
	1226	Administering sprays		

		1227	Topical anesthesia		
		1240	Medication using a medication pump or infusion machine		
		1671	Medicine for epidural space		
		1238	Implementation of chemotherapy		
		1908	Administering the drug by other means		
1108	Fluid balance - components related to the amount of fluid in the body	1117	Determination of fluid balance	1118	Swelling monitoring
				1726	Securing fluid balance
				1121	Intravenous rehydration
				1123	Administration of blood products
				1125	Limiting the amount of fluid
				1727	Enhanced hydration
				1728	Oral rehydration
				1729	Hydration in other ways
		1730	Securing the operation of the cannula		

1464	Mental capacity - components related to mental capacity	1465	Monitoring of mental status	1484	Mood tracking
		1467	Identifying thought disorders		
		1469	Nursing relationship work		
		1472	Group treatments and therapies		
		1476	Individual treatments and therapies		
		1490	Implementation of isolation treatment		
		1498	Supporting mental functioning		
		1679	Creative treatments and therapies		
		1680	Interaction and mood monitoring during isolation
